

Brief CV

Name	Jikai Liu	Gender	Male	
Title (Pro./Dr.)	Professor	Country	China	
Phone Number		University Email		
University/Department	Shandong University/School of Mechanical Engineering			
Personal Web Sites				
Research Area	Additive manufacturing; Topology optimization			
Brief introduction of your research experience:				
<p>Jikai Liu is a Professor at School of Mechanical Engineering, Shandong University, China. He received his PhD degree from University of Alberta, Canada, and used to work as a Postdoctoral Research Associate at the ANSYS Additive Manufacturing Research Laboratory at University of Pittsburgh, USA. His main research is focused on topology optimization, additive manufacturing, and engineering informatics. Dr. Liu has published more than 30 papers in peer-reviewed international journals. He is currently an editorial board member of the journal 'Current Chinese Computer Science'. He also serves as paper reviewer for around 15 well-reputed international journals, including Computer Methods in Applied Mechanics and Engineering, Computer-Aided Design, Additive Manufacturing.</p>
